Guident Ltd Files Patent Application

April 29, 2019 London: Guident Ltd, the developer of software apps for autonomous vehicles and drones announces the filing of a U.S. patent application (No. 16/386,530) entitled **Methods and Systems for Emergency Handoff of an Autonomous Vehicle.**"

Harald Braun, Guident's Chairman said,

"We are pleased to announce that Guident has filed a patent application entitled: Methods and Systems for Emergency Handoff of an Autonomous Vehicle. This patent application deals with the operation and control of an autonomous vehicle in the event of an accident. In a recent survey by PWC¹, 43% of respondents indicated that a key perceived disadvantage of AV relates to safety concerns. We believe our new patent will help address some of these issues by defining forward-thinking, post-accident protocols."

About Guident, Ltd.

Guident commercialises new technology to enhance the utility, safety and enjoyment of autonomous vehicles and drones. Using its proprietary IP, Guident is developing Apps that allow users of AV's to dispatch their vehicles to join ridesharing fleets, find available parking spots and charging stations, report and respond to accidents, as well as park themselves. This press release is for informational purposes only. The information herein does not constitute investment advice nor an offer to invest and may contain statements related to our future business and financial performance and future events or developments involving Guident that may constitute forward-looking statements. These statements may be identified by words such as "expect," "look forward to," "anticipate" "intend," "plan," "believe," "seek," "estimate," "will," "project" or words of similar meaning. We may also make forward-looking statements in other reports, in presentations, in material delivered to customers, stakeholders and in press releases. In addition, our representatives may from time to time make oral forward-looking statements. Such statements may be based on the current expectations and certain assumptions of Guident's management. Please note that these are subject to a number of risks, uncertainties and factors, including, but not limited to those described in various disclosures. Should one or more of these risks or uncertainties materialize, or should underlying expectations not occur or assumptions prove incorrect, actual results, performance or achievements of Guident may vary materially from those described explicitly or implicitly in the relevant forward-looking statement.

Guident neither intends, nor assumes any obligation, to update or revise these forward-looking statements in light of developments, which differ from those anticipated.
